EcoPower® Passenger Car Motor Oil provide maximum protection for longer engine life. EcoPower's robust formulation includes:

- **Highest quality re-refined base oils** with exceptional purity and lubricating properties that are as good or better than base oils made from crude oil
- **Advanced synthetic base oils** for an extra measure of performance and protection under the most severe operating conditions
- **State-of-the-art performance additives** including viscosity index improvers, detergents, dispersants, and anti-wear agents provide maximum protection against breakdown and engine wear

EcoPower Motor Oils, like the leading motor oils, exceed the toughest North American standards for performance, protection and resource conservation including API service SN and ILSAC GF-5. Re-refined motor oils, like **EcoPower Motor Oil**, are highly beneficial for the environment:

- Conserves valuable, non-renewable resources
- Takes up to 85% less energy to produce than oils made from crude according to a recent Dept. of Energy study
- Reduces greenhouse gas emissions by over 80%
